- **Luxuriate in a mineral spa like experience**

# acquatherapé

Transform your pool into a luxurious mineral bath. Specially blended minerals are designed to soften your pool or spa water, for a swimming or bathing experience like no other. Swimmers can absorb up to 500ml of water in an hour of pool use and the unique blend of Acqua Therapé can provide health benefits for the skin, hair, eyes and nervous system.

Suitable for most salt chlorinators, Acqua Therapé is easily dissolved into the pool water and its ingredients help prevent staining and assist in preventing calcium and scale build up in the salt chlorinator cell, heaters, pool interior and other equipment.

Acqua Therapé replaces conventional pool salt and is best added to your pool when first installed or filled however, can simply be progressively added to the pool as a pool salt replacement. Over time, as Acqua Therapé replaces conventional salt, your skin will feel softer and rejuvenated. Hair is less tangled after swimming and eyes are soothed when Acqua Therapé is added in the recommended quantity.

Swimming is well known as one of the best forms of exercise for the cardio vascular system, now enjoy the benefits of a mineral bath to your pool and enhance your pool or spa experience.

**Available from:**

**Application:** Simply add 40kg of Acqua Therapé per 10,000 litres of pool or spa water after pool has been filled. Suitable for all salt chlorinators with a recommended salt level of 4,000 ppm. When replacing conventional pool salt, ensure salt level does not exceed 4,000 ppm after the addition of Acqua Therapé. While filter pump is operating, add Acqua Therapé to the deep end of the pool and gently agitate with a pool brush to dissolve. Adjust pH level after addition to between 7.4 and 7.6.
